Coding practice & good coding

Sugarkhuu Radnaa

Py4Econ in Ulaanbaatar

py4econ@gmail.com

Get to know:

1. Practice previoius chapters
2. Tips for writing code well

- Data generating
- Database CRUD operations:
  https://github.com/Py4Econmn/week8_repo_github
- Git remote and branch
- Debugging

- Description of the code
- Comments
- Simple and short variable name (convention)
- Indentation and spacing
- Commit little by little
- Logically consistent and well tested . . .

Thank you!
